# Tax credit pushes Sun net up by 70%

India, US revenues show sequential improvement

SOHINI DAS  
Mumbai, 3 November

Sun Pharmaceutical Industries has reported a massive 70 per cent year-on-year (YoY) rise in consolidated net profit, thanks to an exceptional tax credit of ₹288 crore.

On a standalone basis, net profit grew 36 per cent despite muted revenue growth.

Sun Pharma shares closed at ₹485 apiece — up 3.4 per cent — on the BSE on Tuesday, with results beating analyst estimates. Consolidated revenues were up 6.4 per cent, thanks to higher sales in rest of the world (RoW) and emerging markets. The two major markets of India and the US posted flat revenue growth. Both countries account for 30 per cent of Sun Pharma's consolidated sales. The second quarter, however, saw some signs of revival.

While India sales rose only 1 per cent YoY, it clocked 6 per cent growth sequentially. Similarly, the US market posted flat revenue growth YoY at \$335

## Drug regulator declines emergency use authorisation for herbal pills

The Indian drug regulator has declined an application seeking emergency use authorisation (EUA) for AQCH, a phytopharmaceuticals or herbal drug that Sun Pharma is testing for treatment of Covid-19, based on the results of phase-II clinical trials. Sun had submitted an application for EUA of AQCH to the Central Drugs Standard Control Organisation. The Covid-19 expert committee deliberated on Sun's application and declined EUA for AQCH. The firm said, "Sun Pharma believes AQCH is effective and well tolerated in moderate Covid patients, based on clinical study data, and has the potential to reduce the overall burden on the health care system. The firm is in the process of providing additional analysis and clarifications to the regulator based on the queries raised during its presentation to the SEC."

for Ilumya was strong in Japan. In India, acute therapy growth is on the decline even as chronic therapies have shown growth in both Q1 and Q2. The

company launched 22 new products during the second quarter in India. Analysts said the specialty segment looks promising. "While the US generics front is going through calibrated product rationalisation, the specialty segment is showing promise thanks to a robust product pipeline and steady progress. This metamorphic shift from generics to specialty, however, is likely to weigh on US growth. Higher contribution from specialty and strong domestic franchise is likely to change the product mix towards more remunerative businesses by FY22," said ICI-CDirect.

## Adani Ports & SEZ Q2 consolidated profit up 32% to ₹1,394 crore

Adani Ports and Special Economic Zone (APSEZ) on Tuesday reported a 31.57 per cent increase in its consolidated profit to ₹1,393.69 crore for the second quarter ended on September 30, 2020.

The country's largest integrated logistics player had clocked a consolidated net profit of ₹1,059.20 crore in the corresponding period a year earlier, the company said in a BSE filing.

Its total consolidated income rose to ₹3,423.16 crore for the second quarter, as against ₹3,326.90 crore in the year-ago period.

The company's total expenses during the quarter under review declined to ₹1,622.78 crore, compared to ₹2,440.56

crore in the year-ago period.

Karan Adani, CEO and Whole Time Director of APSEZ said, "APSEZ has proven the utility nature of its portfolio of assets by increasing the market share in India to 24 per cent in overall cargo. With economy reopening in stages, APSEZ has returned to growth trajectory registering a cargo volume growth of 36 per cent on a Q-o-Q basis. Port Ebitda improves to 71 per cent on account of continuous focus on operational efficiency."

"Adani said APSEZ is well on course to achieve 500 million tonne (MT) of cargo throughput by FY25. We expect cargo volume in full year FY21 to be in the range of 245 to 250 MMT, including KPCL, which we acquired in October '20," he said. PTI

The company had reported a net profit of ₹352.98 crore in the quarter ended September 30, 2019, it said in a regulatory filing. The total income declined to ₹1,999.52 crore in the second quarter, from ₹2,231.85 crore in the same period last year. The company's total income fell 37 per cent to ₹250.23 crore in Q2 from ₹395.11 crore a year ago. The firm said its total booking value in Q2 stood at ₹1,074 crore on a booking volume of 1.73 million sq ft. It sold 1,373 residential units in the quarter. RAGHAVENDRA KAMATH

## Dabur India profit up 20% to ₹483 cr

Backed by strong sales in the domestic market, Dabur India reported a sharp rise in revenue and profit for the July-September quarter (Q2).

The Ghaziabad-headquartered firm's net profit rose 19.6 per cent year-on-year to ₹482.9 crore in Q2 from ₹403.6 crore in the same period last year. Its bottom line showed strong growth despite a steep 51 per cent rise in tax outgo due to readjustments with the new accounting standards.

Dabur's operating revenue grew 13.7 per cent to ₹2,516 crore from ₹2,212 crore last September due to superior performance in the domestic market. It reported an 18 per cent rise in its India business that accounts for 67 per cent of its revenue. Domestic revenue stood at ₹1,901 crore, up from ₹1,612 crore. Net profit for the local market went up 20.6 per cent to ₹393 crore. The fast moving consumer goods (FMCG) revenue — that accounts for close to 99 per cent of Dabur India's operations — went up 19.8 per cent, with an underlying volume growth of 16.8 per cent.

According to Mohit Malhotra, CEO, Dabur India, the strategic business transformation exercise that it undertook "to develop and implement aggressive growth strategies in core business areas and successfully address the emerging challenges helped us deliver a healthy top line growth accompanied by an expansion in margin." It posted a strong 49 per cent growth in the domestic health care business, backed by recent innovations that are now contributing around 5-6 per cent of revenue from the segment. ARNAB DUTTA

# Steel prices up by ₹1,200 per tonne as demand rises

ISHITA AYAN DUTT  
Kolkata, 3 November

Steel companies have increased prices by ₹1,200 a tonne effective November 1, bringing it closer to peak levels of 2018.

In November 2018, prices of hot rolled coil (HRC) — a benchmark for flat steel — were at ₹46,250 a tonne.

Since July, prices have gone up by ₹8,000-8,500 a tonne

However, prices were reduced the following month. Prices of HRC were close to ₹45,000 a tonne after the tonne increase. According to a producer, while HRC prices were increased by ₹1,200 a tonne, the rise in prices of galvanized and colour coated products were higher, but widely varying.

VR Sharma, managing director, JSPL, said the company had increased prices by ₹1,000-1,200 a tonne. On a cumulative basis, steel mills have increased HRC steel prices by ₹8,000-8,500 since July. The increase in prices reflected a recovery in domestic demand.

Jayanta Roy, senior vice-president, ICRA, said domestic steel (HRC) prices had been through a roller coaster ride in the past two years.

"While steel prices ruled at ₹46,500 per tonne in the beginning of November 2018, the rates dropped sharply to the recent low of ₹32,250 per tonne in the next one year until November 2019. Prices, however, took a u-turn thereafter, reaching the current level of close to ₹44,500 per tonne. At current levels, domestic prices are aligned with international steel prices," he added.

A producer said, "I have not seen these kind of margins in a long time. They are not at peak levels but at least somewhat close to it." Though iron ore prices are at elevated levels, coking coal prices have partially offset it.

The price rise in steel is largely seen as a reflection of the uptick in domestic demand, especially from segments like automotive, appliances, apart from rural. Sharma said the government projects had also picked up. Consumption of finished steel in September 2020 registered an increase of 3.74 per cent month-on-month basis but was lower by 0.8 per cent over 2019.

With domestic steel demand and picking up, companies are cutting down on exports. In the initial months of the lockdown, steel firms diverted bulk of their output to export markets. For some companies, exports accounted for 70-80 per cent of total output.

However, month-on-month exports have been coming down. In July, exports of finished steel products stood at 1.376 million tonne which dropped to a little more than a million tonne in August and in September it was around 864,000 tonne that was lower by 15.2 per cent compared to September 2019. In contrast, exports in July saw a rise of 128 per cent compared to the same period last year.

Sharma said JSPL's exports were now at 15-17 per cent of the total produce. He said the firm had decided not to export semi-finished steel and would be exporting finished steel as realisations were higher.
